

Profile

Designer and Front-End Developer with a background in Architecture. I have brought my experience as a space designer to create clean and functional designs on the web. I started doing web design as a hobby and personal project, and soon it developed into my new passion and profession. I have working knowledge building responsive web sites using the latest techniques in HTML5/CSS3 and jQuery. I can create UI interfaces using Photoshop, Mock flow and Balsamic Mockups.

Freelancer Experience

Diapers Savers | November 2014

Front End Development utilizing HTML5, CSS3, and jQuery based on the Foundation framework.

Logo Design and Images created in Photoshop.

Patina Studio | September - December 2014

Front End Development utilizing HTML5, CSS3, and jQuery based on the Bootstrap framework.

TCOhealth | April - June 2014

Design and Front End development of landing page and mockup application. Built with HTML5/CSS3 via Sass. work with 3rd party API's, libraries and tools. The user interface is enhanced with the use of jQuery plug-ins and graphs.

Personal Project

booksprice.com | September 2004 - Present

Design and maintenance of the website and it's mobile application.

The new design of booksprice.com, still in testing, uses responsive

booksprice.com techniques and is written in HTML5/CSS3 & jQuery.
